

Add Workflow to Form

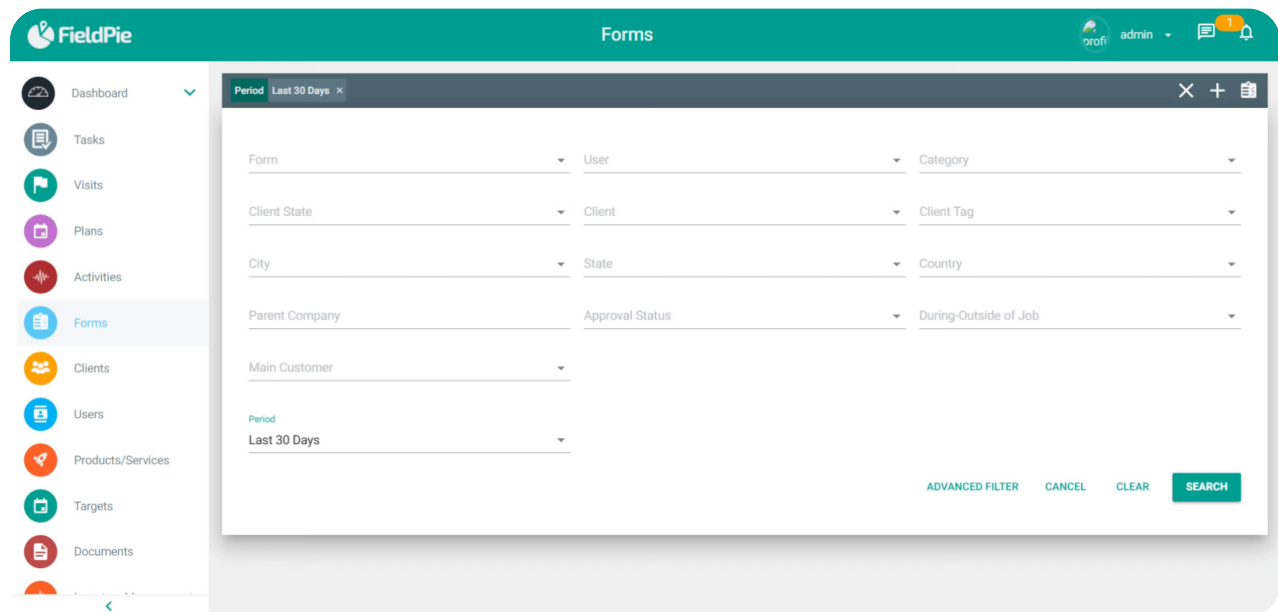

Powered by [guidde](#)

The screenshot shows the FieldPie Forms interface. On the left is a sidebar menu with options: Dashboard, Tasks, Visits, Plans, Activities, Forms (highlighted), Clients, Users, Products/Services, Targets, and Documents. The main content area is titled 'Forms' and features a table with columns: Form, User, Category, Client State, Client, Client Tag, City, Country, Parent Company, App, and During-Outside of Job. A 'Period' dropdown is set to 'Last 30 Days'. At the bottom right of the table are buttons for 'ADVANCED FILTER', 'CANCEL', 'CLEAR', and 'SEARCH'. A large red play button icon is overlaid in the center of the table.

00 Introduction

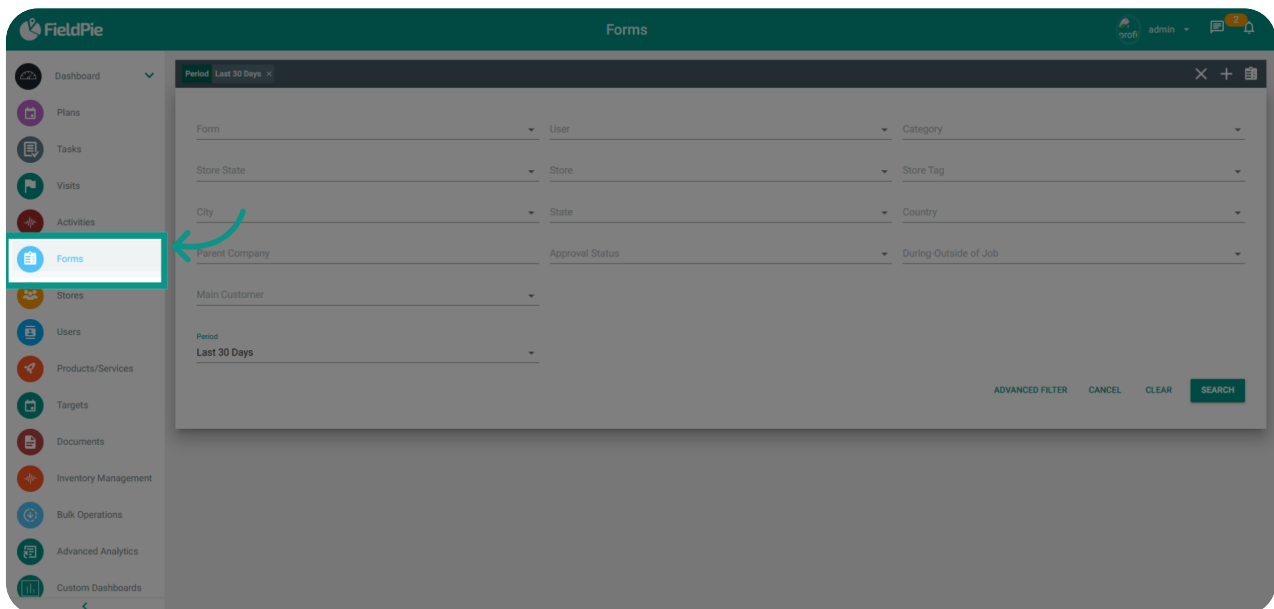

This tutorial guides you through adding and deleting workflows in FieldPie

The screenshot displays the FieldPie application interface. On the left is a sidebar menu with icons and labels for: Dashboard, Tasks, Visits, Plans, Activities, Forms (highlighted), Clients, Users, Products/Services, Targets, and Documents. The main header is teal with the FieldPie logo, the word 'Forms', and user information (admin) with a notification bell. A modal window is open over the main content area, titled 'Period Last 30 Days'. It contains a grid of filterable fields: Form, User, Category, Client State, Client, Client Tag, City, State, Country, Parent Company, Approval Status, and During-Outside of Job. A 'Main Customer' field is also present. At the bottom of the modal, there is a 'Period' dropdown set to 'Last 30 Days' and a search bar with buttons for 'ADVANCED FILTER', 'CANCEL', 'CLEAR', and 'SEARCH'.

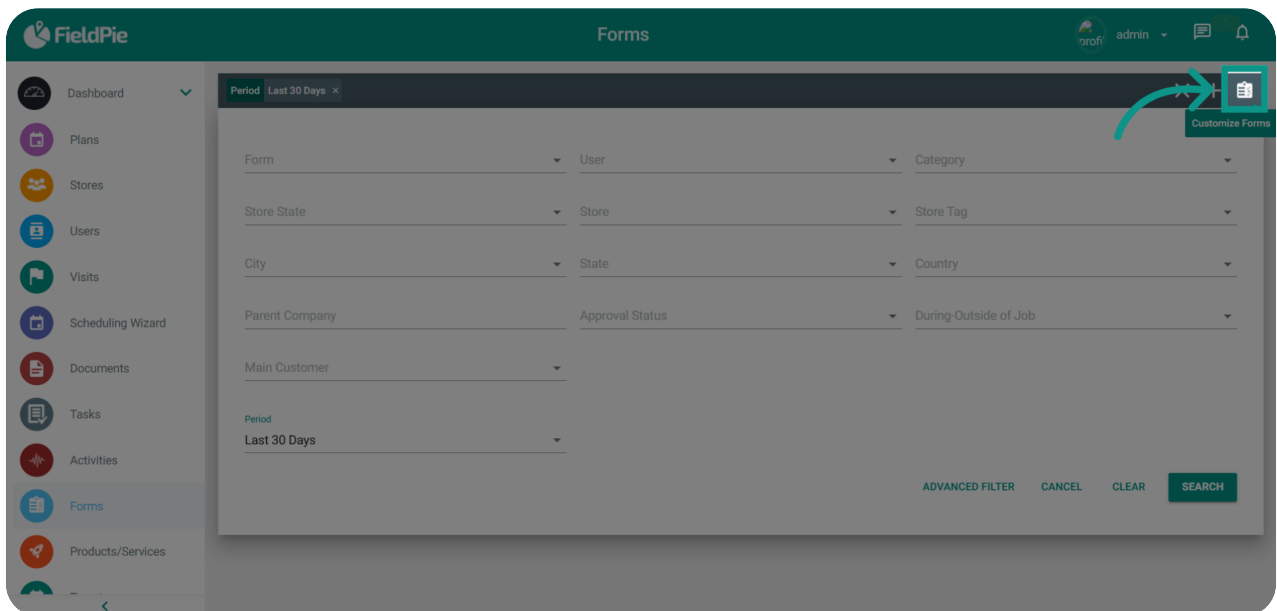

01 Access Forms Section

From the left navigation menu, select "Forms".

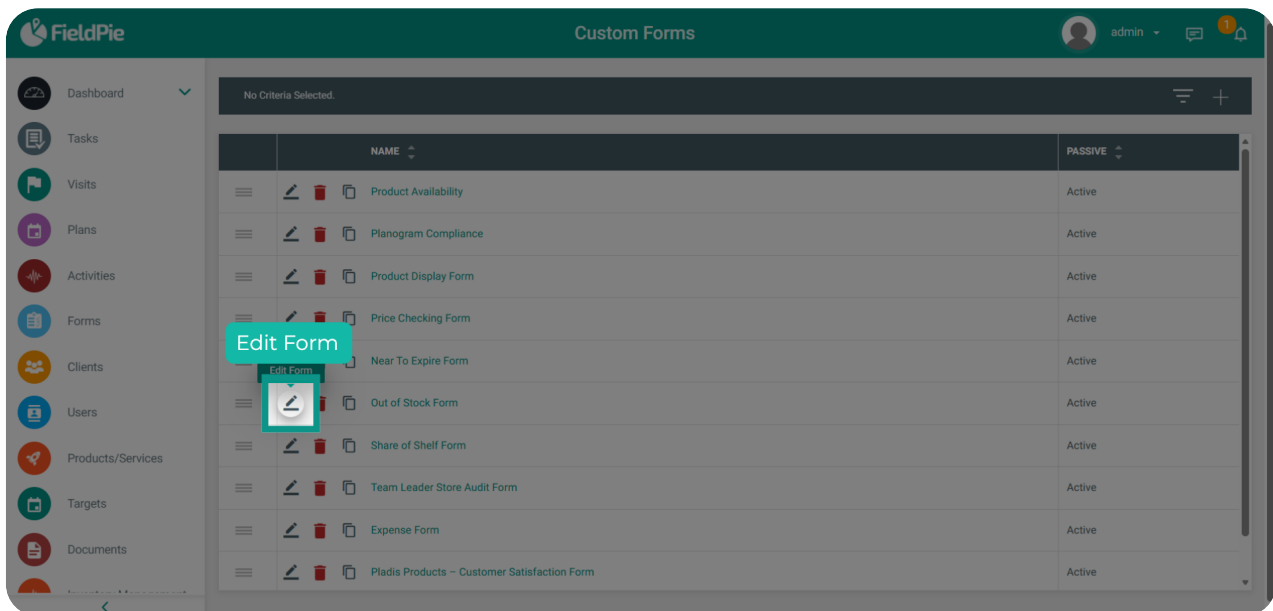

02 Proceed To Next Step

Click the Form icon in the upper-right corner.

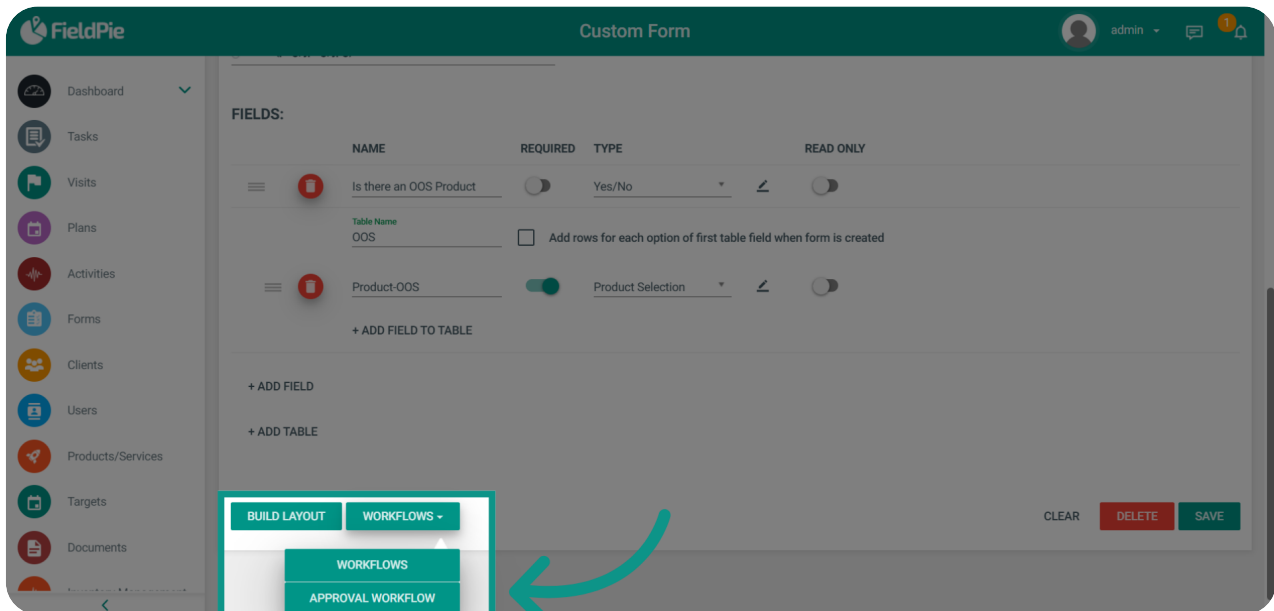

03 Open Custom Forms Section

Click the pencil icon next to the desired form to edit it.

04 Reopen Workflows Menu

Go to the bottom of the page and choose the workflow. With the workflows you can create various actions and send notifications based on the triggers you have created on the selected form.

05 Continue Workflow Setup

Enter a name for the workflow. You can create a workflow based on a selected rule, or set the trigger to a Form Submission or Visit Completion.

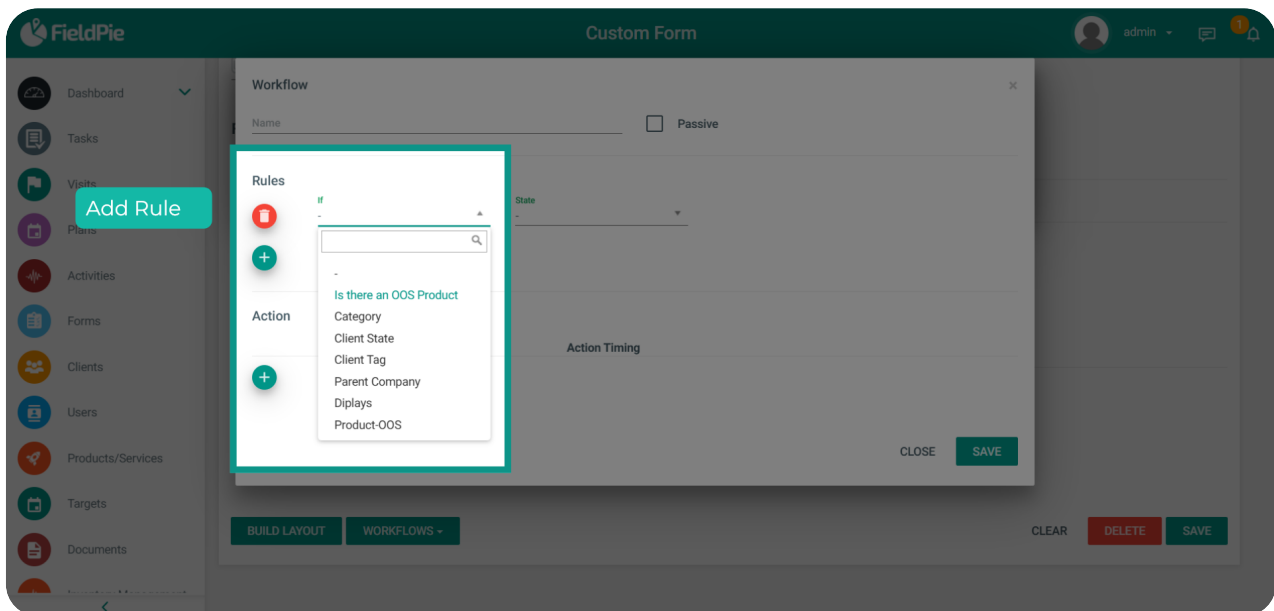

The screenshot displays the FieldPie 'Custom Form' interface. A 'Workflow' modal is open, allowing users to configure a new workflow. The modal includes a 'Name' input field, a 'Passive' checkbox, a 'Rules' section with a '+' button, and an 'Action' section with a table for defining actions.

Type	Action Timing

At the bottom of the modal are 'CLOSE' and 'SAVE' buttons. The background interface shows a sidebar with navigation options like Dashboard, Tasks, Visits, Plans, Activities, Forms, Clients, Users, Products/Services, Targets, and Documents. At the bottom of the main area are buttons for 'BUILD LAYOUT', 'WORKFLOWS', 'CLEAR', 'DELETE', and 'SAVE'.

06 Select OOS Product Question

Select a rule from the list and add it.

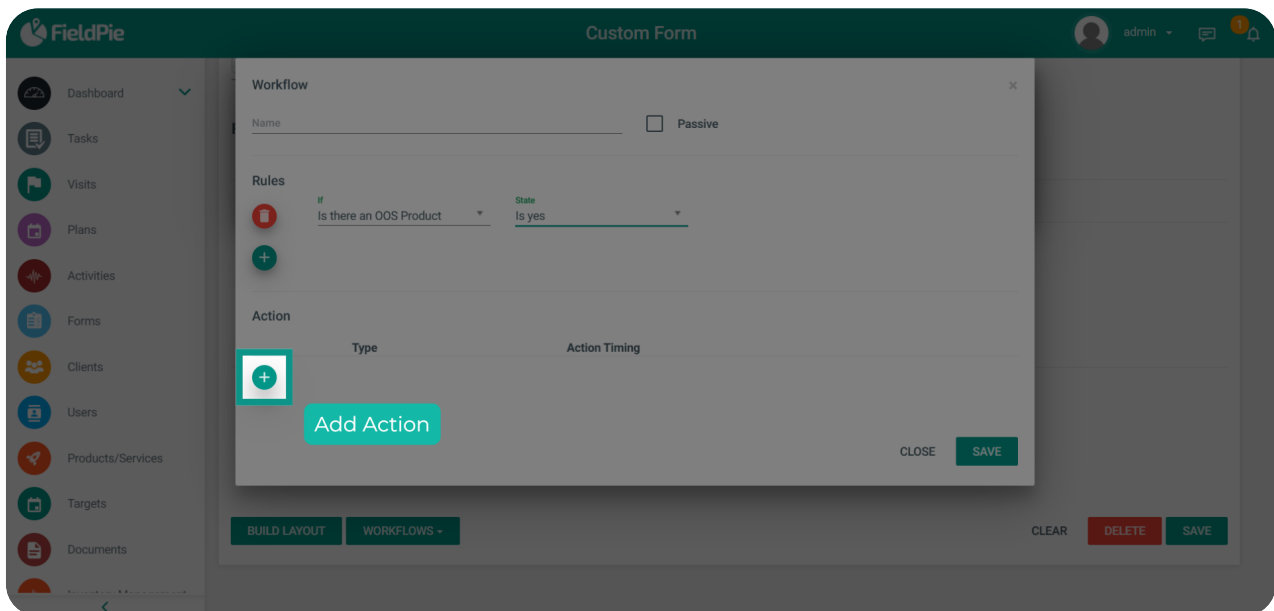

07 Select Affirmative Response

Select a state from the list.

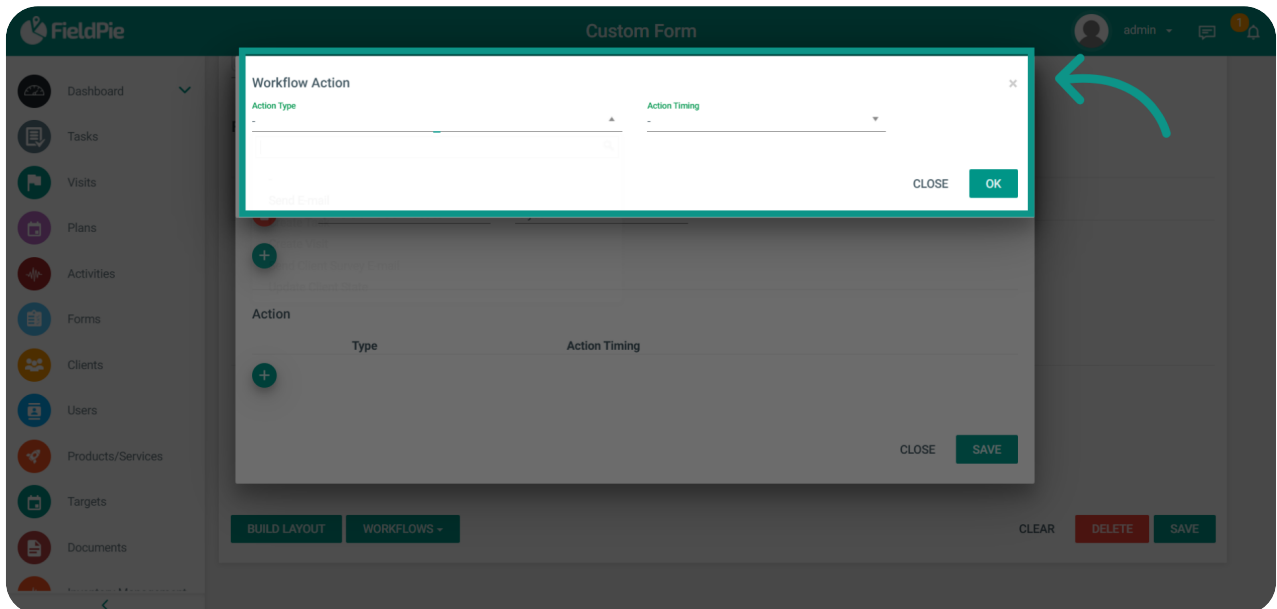

The screenshot displays the FieldPie Custom Form Workflow editor. A modal dialog titled "State" is open, showing a list of states: "-", "Is no", and "Is yes". The "Is yes" state is highlighted in green, indicating it is the selected affirmative response. The background shows the Workflow editor with a rule "if Is there an OOS Product" and an action section. The interface includes a sidebar with navigation options like Dashboard, Tasks, Visits, Plans, Activities, Forms, Clients, Users, Products/Services, Targets, and Documents. At the bottom, there are buttons for BUILD LAYOUT, WORKFLOWS, CLEAR, DELETE, and SAVE.

08 Proceed in Workflow Steps

Click + to add an action.

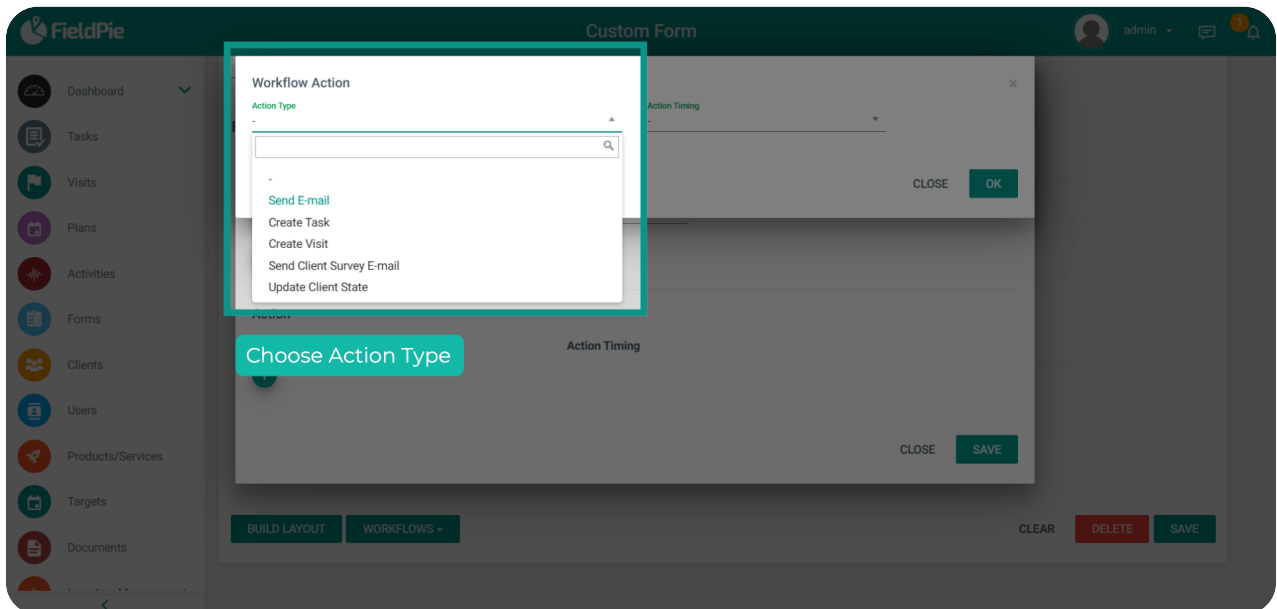

09 Collapse Current Section

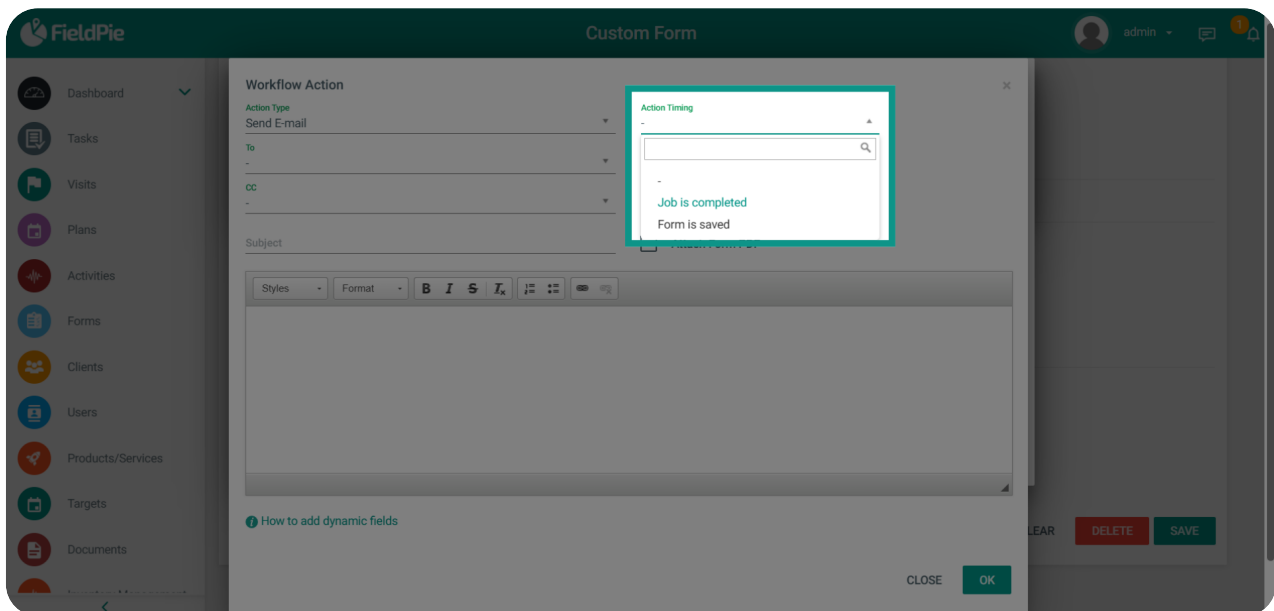

10 Choose Send Email Action

Add an action to define what should happen automatically when the rule is triggered. Depending on your workflow, you can choose to send an email, create a task, create a visit, send a client survey email, or update client state.

11 Select Job Completion Status

Select an action timing from the list.

12 Confirm Alert Title

Complete all required fields.

The screenshot displays the 'FieldPie' application interface, specifically the 'Custom Form' configuration screen. The left sidebar contains a navigation menu with options: Dashboard, Tasks, Visits, Plans, Activities, Forms, Clients, Users, Products/Services, Targets, and Documents. The main content area is titled 'Workflow Action' and shows the configuration for a 'Send E-mail' action. The 'Action Type' is 'Send E-mail', and the 'Action Timing' is 'Job is completed'. The 'To' field is set to 'Team Manager', the 'CC' field is set to 'Team', and the 'Subject' is 'Out of Stock Alert'. There is an option to 'Attach Form PDF' which is currently unchecked. Below the form fields is a rich text editor with a toolbar and a text area containing the placeholder text 'Fill the e-mail'. At the bottom right of the form, there is a red arrow pointing to a green 'OK' button. Other buttons visible at the bottom right include 'CLEAR', 'DELETE', and 'SAVE'.

14 Continue Workflow Setup

Click Save to create the workflow.

15 Continue Workflow Setup

If you want to remove the workflow from the form, click the trash bin icons.
