00 Introduction

This tutorial guides you through exporting form data in FieldPie. All forms created in FieldPie can be exported as Excel reports, where each form field is displayed as a column header in the exported data.

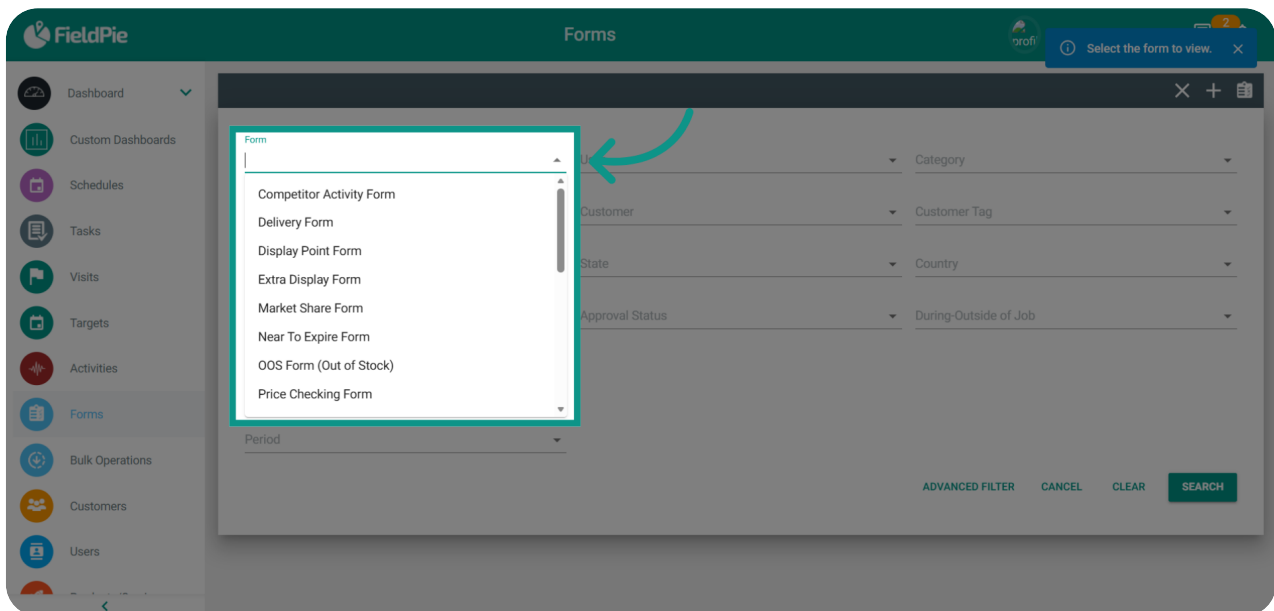

01 Access Forms Section

From the left navigation menu, select "Forms".

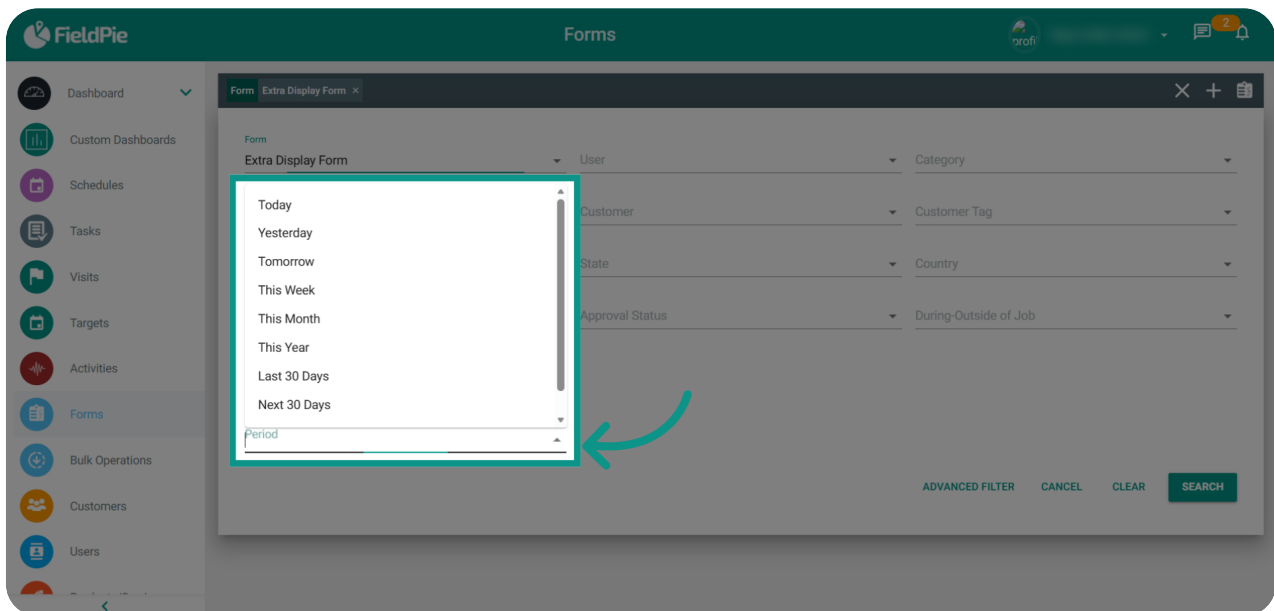

02 Select Form Option

Select the form you want to export from the Form filter list.

03 Choose Period Filter

Choose the period range you want to export.

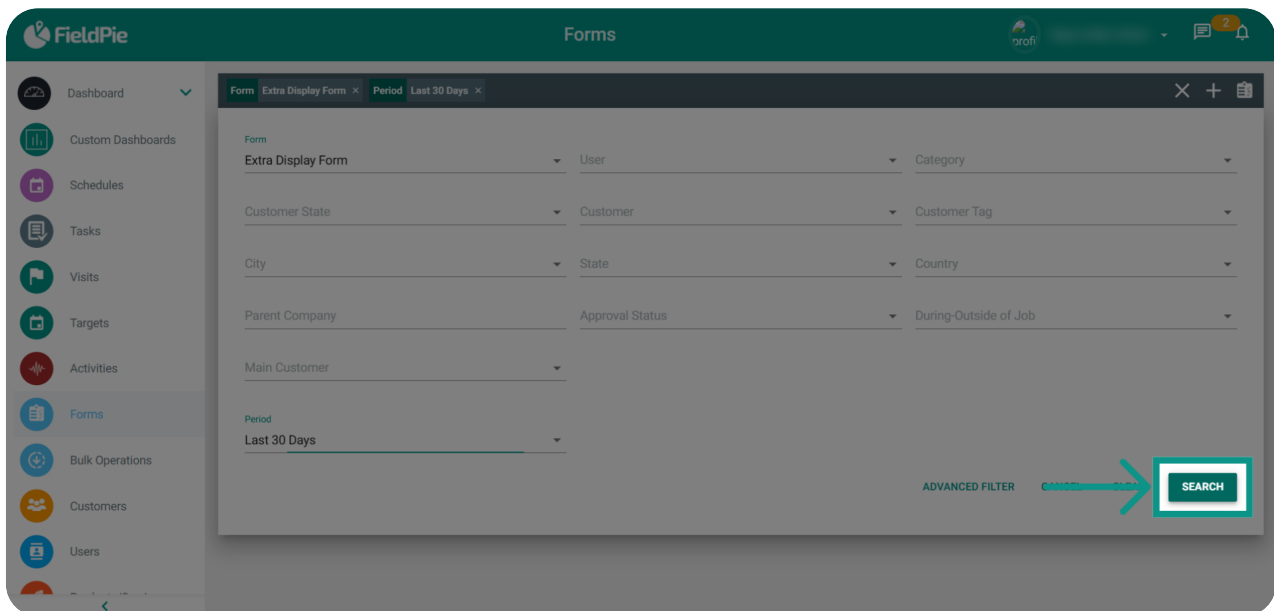

04 Execute Search Query

Additional filters can be applied optionally, based on your needs.

The screenshot displays the FieldPie Forms search interface. On the left is a sidebar with navigation icons for Dashboard, Custom Dashboards, Schedules, Tasks, Visits, Targets, Activities, Forms (highlighted), Bulk Operations, Customers, and Users. The main panel is titled 'Forms' and contains a search filter modal. This modal has tabs for 'Form' (selected) and 'Period'. Under the 'Form' tab, there are several filter categories: 'Form' (with 'Extra Display Form' selected), 'User', 'Category', 'Customer State', 'Customer', 'Customer Tag', 'City', 'State', 'Country', 'Parent Company', 'Approval Status', 'During-Outside of Job', and 'Main Customer'. The 'Period' tab is also visible, showing 'Last 30 Days' selected. At the bottom right of the modal are buttons for 'ADVANCED FILTER', 'CANCEL', 'CLEAR', and 'SEARCH'.

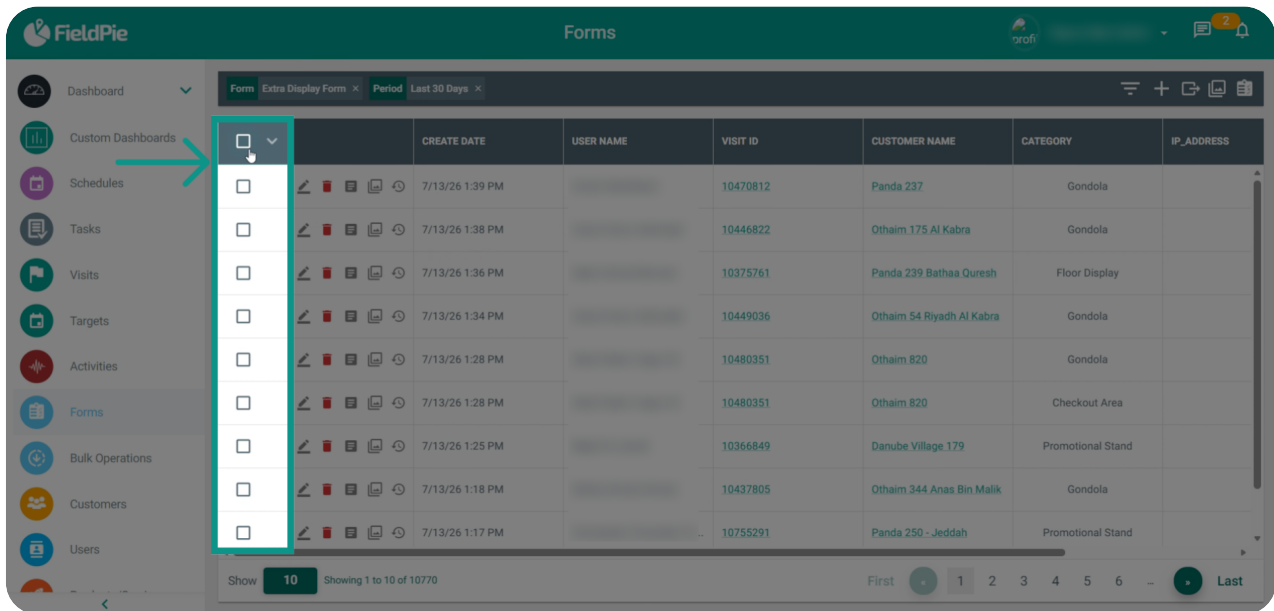

05 Execute Search Query

Click Search to apply the selected filters.

06 Enter Activation Value

Use the checkboxes on the left to select the records you want to export, either individually or in bulk, or select all data.

On the left is a sidebar with navigation options: Dashboard, Custom Dashboards, Schedules, Tasks, Visits, Targets, Activities, Forms (highlighted), Bulk Operations, Customers, and Users. A teal arrow points from 'Custom Dashboards' to the 'Forms' section. The main area shows a table of records with columns: CREATE DATE, USER NAME, VISIT ID, CUSTOMER NAME, CATEGORY, and IP_ADDRESS. A dropdown menu is open over the first column, showing checkboxes for selecting individual records or all data. The table contains 10 records, and the bottom status bar indicates 'Showing 1 to 10 of 10770'.

07 Proceed with Action

After selecting the forms, click the export icon in the top-right corner.

The screenshot shows the FieldPie Forms page. On the left is a sidebar with navigation options: Dashboard, Custom Dashboards, Schedules, Tasks, Visits, Targets, Activities, Forms (selected), Bulk Operations, Customers, and Users. The main area displays a table of forms. The first column contains checkboxes, all of which are checked. The table has columns for CREATE DATE, USER NAME, VISIT ID, CUSTOMER NAME, CATEGORY, and IP ADDRESS. A red box highlights the 'Export' icon in the top-right corner of the table. A red arrow points from the 'Export' icon to the 'Export' button in the top-right corner of the page.

08 Export Data as Excel

You can export the selected forms as XLSX or CSV.

The screenshot displays the FieldPie application interface. On the left is a sidebar with navigation icons for Dashboard, Custom Dashboards, Schedules, Tasks, Visits, Targets, Activities, Forms, Bulk Operations, Customers, and Users. The main area is titled 'Forms' and shows a table of form data. A modal dialog box is open in the center, titled 'Export Data as Excel', with a close button (X) in the top right corner. The dialog contains a checkbox labeled 'Include Customer Details' which is currently unchecked. Below the checkbox, it says 'Export file as .xlsx or .csv'. A 'CLOSE' button is at the bottom right of the dialog. A red arrow points from the 'Include Customer Details' checkbox to the right. The table in the background has columns: CREATE DATE, USER NAME, VISIT ID, CUSTOMER NAME, CATEGORY, and IP_ADDRESS. The bottom of the interface shows a pagination bar with 'Show 10' and 'Showing 1 to 10 of 10770'.
